4 Using This Map

These construction projects primarily take place off of the existing roadway. Heavy **Four-Laning** equipment crossing the **Projects** highway and brief traffic

stoppages due to work on new interchanges, however, are possible.

A red triangle on the map indicates a location where a bridge will be replaced or rehabilitated. Motorists in the area of these projects may Bridge encounter lane reductions, Work closed roadways and posted detours.

These operations involve applying a

Resurfacing **Projects**

new, smoother driving surface to the existing roadway. Drivers should expect possible delays caused by lane closures and reduced speed limits.

These transportation improvements may be made Other on or off of the roadway. They **Transportation** either do not fit into the other **Improvements** categories of projects or are a combination of those listed above.

In 2002, 28 people died n Missouri work zones.

Work Zone Safety

Here are 10 things you can do to keep from becoming a statistic

Avoid work zones. Use this guide or call 1-888-ASK MODOT to find out about highway construc-

Slow down. Obey posted speed limits.

Minimize distractions. Avoid talking on a cell phone, adjusting your radio, eating, etc.

Stay alert and make safety your first priority.

Expect the unexpected. Be ready for sudden stops or for heavy equipment in the roadway.

Observe work zone signs and crew workers.

Utilize caution. Merge early and don't tailgate.

Turn on your headlights so others see you.

Be patient. Work zones result in better roads.

Wear your seatbelt. It could save your life.
